Subject: Funding for Haskell Lake

Hi Kristen,

We have tentative approval for funding the private well sampling at Haskell Lake, but I need to receive your letter requesting the assistance so I can formally request the approval to use the funds at this site. I will be writing a memo to our headquarters office which includes information about the history of the site, the risk issues, and the need for funding.

This memo will need to be approved by the Director of the Office of Underground Storage Tanks before I can access the funds and begin the contracting process. The sooner I get the letter, the sooner we can get moving. I hope to be able to fund 2 rounds of samples.

Thank you. Please let me know if there is anything I can do to speed the process along. I may be in LDF on a personal trip from May 18-20, so if it would help to meet in person, we can set it up.

Regards,

Bob
